

**26 June 2018**

**Guy Barnett, Minister for Energy**

## **Energy facts for David O'Byrne**

Fact – the Liberal Government's energy policies will result in Tasmanians paying less for energy.

Fact – under Labor and the Greens energy prices went up by more than 65 per cent over seven years.

Instead of whinging and making stuff up David O'Byrne should support the Government's plan to de-link Tasmania from the national energy market which will shield Tasmanian consumers from the huge energy shocks being experienced on the mainland.
