## **Defibrillator for Maydena community**

In fantastic news for the local community, the Maydena Community Association will receive a defibrillator.

Being a regular visitor to Maydena and seeing firsthand the amazing work in this community, I am pleased to announce the defibrillator funding and glad it will be available to potentially save lives in the area.

Defibrillators make a very real difference when someone suffers a cardiac arrest and can be the difference between life and death.

It's a great outcome for the community, and another example of the Government's commitment to helping our most vulnerable citizens.
