Small Business is doing it tough

Small business is the engine room of our economy - with over 38,000 businesses employing over 105,000 people.

A 1 % increase in small business employment would create 1000 new jobs.

But the Labor-Green government has undermined business and consumer confidence and now we have the highest unemployment in Australia.

Compliance and other costs keep going up under Labor and the Greens.

The Liberal Plan for Small Business

- Cut red and Green tape by 20 %
- Introduce a Local Benefits Test
- Encourage growth into new markets
- Deliver a single planning scheme
- Implement a buy local campaign
- Hand back the unfair carbon tax
- Small business mentoring
- Tackle freight costs

Strong and stable Government

Build a modern economy to create jobs supported by our competitive strengths

Grow tourism to 1.5 million visitors per year

Look to the future with energy; making the case for a nationally-funded second Bass link

Invest in agriculture and aquaculture, backed by our 2050 AgriVision Plan

Grow our mining and forestry sectors into innovative, modern industries, and provide certainty of resource.
